

## **GVI Showcased Advanced Geospatial Intelligence Solutions at GeoSmart India 2025, Bharat Mandapam**

**BANGALORE, India - Jan. 22, 2026 - [PRLog](#)** -- Executive Summary:

Gis Vision India (GVI) announces its participation as an exhibitor at GeoSmart India 2025, organized by Geospatial World at Bharat Mandapam, New Delhi, showcasing integrated GIS, drone, and geospatial intelligence solutions for global infrastructure and governance needs.

New Delhi, India – Dec 2-4, 2025 Gis Vision India (GVI), a fast-growing geospatial intelligence and spatial analytics company, today announced its participation as an Exhibitor at GeoSmart India 2025, organized by Geospatial World, to be held at the prestigious Bharat Mandapam, New Delhi.

GeoSmart India is a globally recognized geospatial forum that brings together international policymakers, technology leaders, infrastructure planners, researchers, and industry innovators to discuss the future of geospatial technologies, digital infrastructure, and data-driven governance.

At the event, GVI will showcase its end-to-end geospatial solutions, integrating Geographic Information Systems (GIS), remote sensing, drone-based surveys, geotechnical data intelligence, and AI-enabled spatial analytics. These solutions are designed to support smart infrastructure development, urban planning, environmental sustainability, utilities, and enterprise decision-making.

GVI's geospatial offerings focus on transforming complex spatial data into actionable intelligence, enabling organizations to improve planning accuracy, operational efficiency, and long-term resilience. The company's solutions are already being leveraged across infrastructure, land assessment, environmental monitoring, and governance-focused projects.

"Participating in GeoSmart India at Bharat Mandapam provides a global platform to demonstrate how integrated geospatial intelligence can support sustainable development and digital transformation," said a spokesperson from Geospatial Vision India. "GVI is committed to building scalable, high-accuracy geospatial solutions that align with national and global development priorities."

During GeoSmart India 2025, GVI will engage with government bodies, international delegations, academic institutions, smart city authorities, and global technology partners, presenting real-world use cases and live demonstrations at its exhibition booth.

### **About Gis Vision India (GVI)**

Gis Vision India (GVI) is a technology-driven geospatial services and solutions company delivering high-precision spatial intelligence across infrastructure, urban development, environment, utilities, energy, and governance sectors. By combining GIS, drone technologies, remote sensing, and advanced analytics, GVI enables data-driven, location-based decision-making for public and private organizations.
